Pointing
to a tree,
a stone,
a bush
or a wall,
Flamingo
brings the
magic to
the nature
and the
garden
comes to life.

Flamingo main characteristic is that the fixture is in class III and low voltage is perfect for outdoor and safety. It has a constant voltage 24V and because of this the power supply can be at a distance, without compromising the whole garden design. The light source is equipped with high-power LED CREE and it can be adjusted on pipes with different heights. Their accessories are: spike, honeycomb louver and tree strap, as well as the three extension pipes.
