ZEUS MEDIUM SYMM  
scale 1:1

Up to now available only in 4 sizes (Mini, Medium, Maxi and Mega), each with a different voltage (from 8 to 56 WATT), in our new 2021 catalogue the family expands by welcoming four new models made with medium power LEDs and symmetrical and asymmetrical reflectors.

New solutions that allow the light designer to draw exactly the light by wish.

**In this way,  
Zeus is  
configured  
as a rich and  
dynamic  
collection,  
which welcomes  
an exclusive  
multiplicity  
of light beams  
to meet any  
lighting need.**

# A true example of flexibility designed for viability

As anticipated, Zeus is highly versatile: from the light beam to the mounting solutions. With Zeus Pole, an urban use designed solution, the city comes to life, the streets light up in a spectacular way, the citizen can feel safe.

Zeus is equipped with a special adapter for diameters of 60mm or 76mm. Two variants are also available: single (with one projector) or double (with two projectors); its also possible to mount multiple spotlights on the same pole with different orientations.

SYMMETRIC LIGHT DISTRIBUTION

ZEUS 36-48 - CYCLE ROUTE / PEDESTRIAN

ZEUS 36-48 - STREET

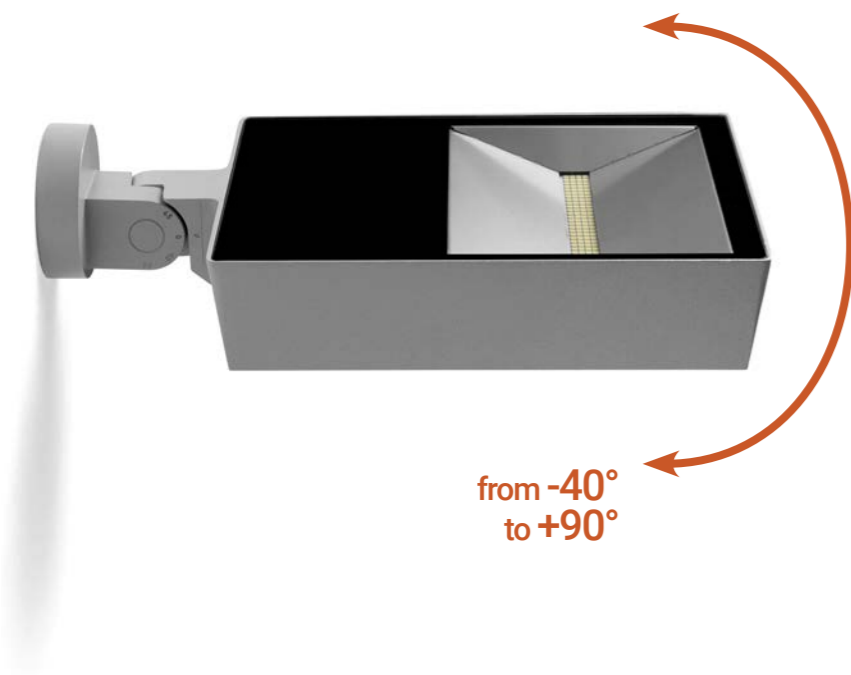

ZEUSS SYMMETRIC

ZEUSS ASYMMETRIC

from -40°  
to +90°

In particular, the version of Zeus Medium and Zeus Maxi with symmetrical light beam is the ideal choice for directing the light flow in every direction, covering very large areas with a beam of light that remains sharp, clean and comfortable.

Besides, the asymmetrical variant of the same model fits better in a lighting project whose goal is to concentrate the emanated light beam in a specific area, for example to emphasize the architectural lines even at night.
